

Axmint

Mint AXM, Print Dollars

www.axmint.io

Introduction

Axmint.io is the brainchild of Axmachine, leveraging its extensive expertise in crypto mining. At the forefront of technological innovation, Axmachine has developed its proprietary crypto-mining software, the "Ax Hash OS."

This sophisticated mining software seamlessly integrates with Axmachine's cutting-edge mining rigs, utilizing AXM tokens as the currency for mining hash energy.

Through Ax Hash OS, users, including small-scale miners, can access cloud mining rig packages. These packages not only provide users with top-notch mining capabilities but also offer a unique incentive system.

Miners receive passive AXM tokens as a return on investment (ROI), creating a dynamic ecosystem where users can actively participate in the crypto-mining process while enjoying the benefits of tokenized rewards.

Remember

The Mining Rigs are running as a cloud server for our client's blockchain mining operations and AXM is generated as the reward for every mining node.

10000 AXM Tokens will be auto-mined for 17500 Days

All mining Rigs (Packages) are valid for 365 days

- ❖ All the reward currency is AXM token.
- ❖ When a package is activated a new node is created in the network.
- ❖ These nodes act as minting algorithms that mint new tokens as per the hash power.
- ❖ The higher the package, the higher the hash power, hence minting more tokens.

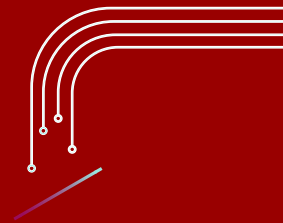

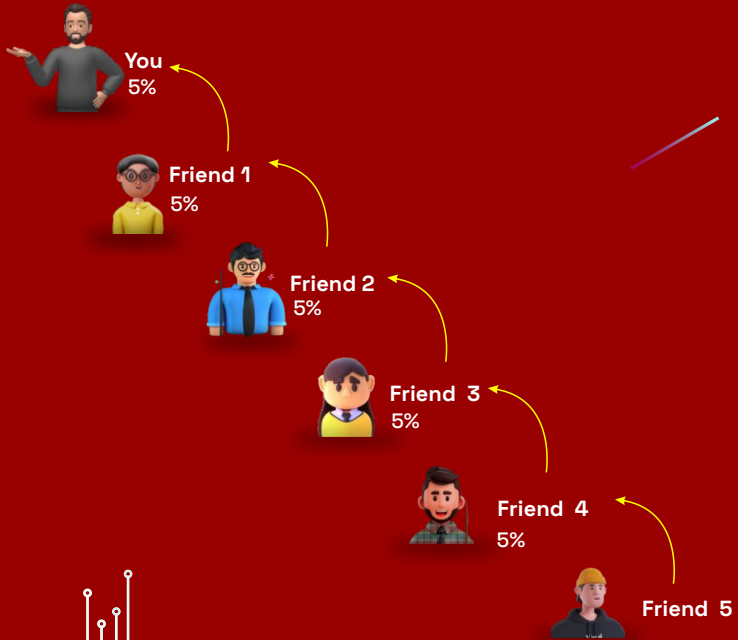

How to Boost my USDT earning?

Referral income: 5%

Earn 5% instant when your referral

activates any package

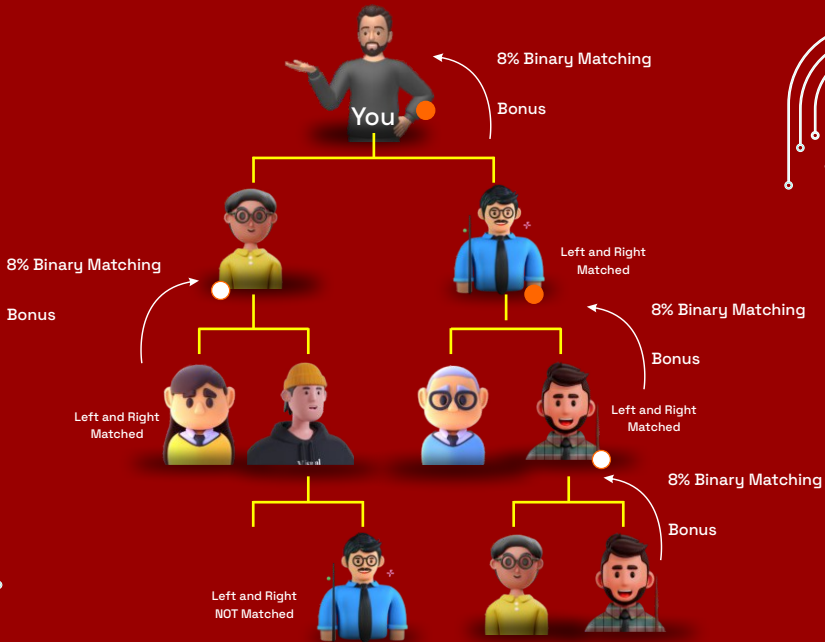

Binary Matching - 8%

Earn 8% Binary matching bonus

1 Left 1 Right active direct for binary eligibility

Earn a Leadership Badge

When you build your team in the binary structure you will receive badges based on both sides of the business and each badge will have a different income.
