# Why are we running the Presale?

To make AXM an International crypto

- With the release of AXM on different networks we are making the token accessible to global crypto users.
- The Presale will also increase the number of active holders of AXM tokens and Axmint platform users.
- This will increase in price, liquidity, and dominance.

# Why is the AXM token released in multiple networks?

For the accessibility and diversity

- AXM token is present in 6 different networks which gives the power to trade in all major networks.
- This will entertain and comfort the users of different networks.
- Axmint application can be used on different networks while making AXM tokens as a fee.

# How can the token be listed for \$1 to \$2 price?

The smart liquidity management and new holders.

- Axmint has a team of experts in blockchain and crypto trading.
- MR Vinay Kumar Patel is a renowned and experienced expert in liquidity management on decentralized and centralized exchange.
- As per his structure, having AXM on different network decentralized exchanges with limited supply and LP burning will maintain a good amount of liquidity for the long run.

Additionally, the upcoming new development of the Axmint program includes big movies including centralized exchange, games, centralized exchange listings, and more.

# BitAxm Exchange Launch and Airdrop Campaign

- Axmint's centralized crypto exchange will be launched with trading support for 200+ cryptos
- Users can trade USDT/INR on the BitAxm exchange.
- AxBitt Exchange Airdrop program is provided to the early adopters of the BitAXM exchange with 500K USD worth of AXM tokens.

## AXM token new listing

- AXM token will be listed on the Bitstorage crypto exchange
- With new partnership programs, the token will be listed on bigger exchanges.

## 50K users target

- The Axmint crypto mining program is processed to achieve a target of reaching 50,000 active miners in Q2 2024.

## Improve gaming experience

- Axmint's AxPlay crypto gaming platform was launched in March 2024, and as per the user feedback, we will upgrade the user experience.
- Adding more engaging, fast and multiple game

## AxLab Blockchain Mainnet launch

- AxLab blockchain testnet is live and developer mode is active, we collect real-time data and the main net is ready to launch.
- The mainnet will be live in quarter 2 for public use of building smart contracts and Dapps.

# AXM Bep20 token burning event

- 10% of the AXM token on the BSC network will be burnt each time
- 25000000 tokens will be burnt to reduce the supply every time
- The burning events will take place 3 times in 3 months, each of the last Zoom meetings of the month.
